

Optimized IOL Constants for Asqelio™ ESCRS Calculator

Asqelio™ Monofocal, Asqelio™ EDOF and Asqelio™ Trifocal are now available for use with the ESCRS IOL Calculator.

Please note that, currently, these constants are **not yet integrated into the calculator's default database**. Therefore, it is necessary to **manually enter the provided constants** when performing lens calculations.

It is essential to select the IOL power that results in a predicted postoperative refraction as close as possible to emmetropia in order to optimize refractive outcomes and maximize patient satisfaction.

FORMULA	Asqelio™ MONOFOCAL	Asqelio™ EDOF	ASQELIO™ TRIFOCAL
Barrett	119,39		119,51
Cooke	119,32		119,46
Evo	119,23		119,36
Hill RBF	119,36		119,48
Hoffer QST	119,33		119,41
Kane	119,23		119,34
Pearl DGS	119,31		119,43
