Ref. BS250TL
Vertical or horizontal wall installation

Mimetic 

White Cashmere finish –MIMETIC- has been developed with a silky texture and minimalist design to help matching into any background. Therefore, the device is designed for being painted in the colour and texture you may wish. It should be necessary to apply first a primer coating to ensure the paint adherence to WATER PROOF surfaces and able to resist temperatures up to 70°C. You can ask in any paint shop.
