Body Contouring

**Redefine Your Patient's Body,
Redefine Their Life**

Red and near-infrared light have been demonstrated in clinical trials to activate adipocytes (fat cells), making them temporarily more porous which results in the release of intracellular lipids, that are then eliminated through the body's natural metabolic processes.

Benefits of Celluma CONTOUR:

- ✓ Reduce the circumference of hips, waist, and thighs
- ✓ Drug-free, pain-free body sculpting
- ✓ 4 Treatment Modes: body contouring, aging skin, acne, and pain management
- ✓ Patented shape-taking design ideal for whole-body application
- ✓ Improve skin texture and appearance
- ✓ Treat and prevent acne breakouts
- ✓ Pain relief for muscles and joints

What kind of results can your patients expect?

Based on our observational study, participants lost on average 2 inches off the circumference of their waist, and 1 inch off their thighs. The study lasted 4 weeks, and patients were treated 3x per week. Participants also reported increased mobility and decreased pain in knees and joints. Individual results will vary based on frequency of treatment and lifestyle.

celluma[®]
Light Therapy

- FDA-cleared, clinically proven
- Professional-grade light therapy
- Whole body wellness system
 - Safe, effective, non-toxic
 - Unique patented design

● Healthy Aging

● Hair Restoration

● Acne & Skin Conditions

● Pain Management & Muscle Recovery

Celluma is:

Versatile

- Treats a wide variety of conditions
- Powerful stand alone or add-on treatment
- Safe on all skin types

Effective

- Clinically proven and FDA-cleared for body contouring, aging skin, acne, hair restoration, and pain management.
- Enhances patient outcomes

The Clinical Gold Standard

Celluma is the most award winning and trusted professional grade LED light therapy in the industry.

Smooth & Radiant Skin

In a clinical trial using Celluma to treat facial wrinkles; 80% of participants said that they experienced an improvement in skin texture, 77% reported an improvement in skin firmness and 66% reported an improvement in facial wrinkles after only 4 weeks.

A Healthy Head of Hair

Red light therapy works by stimulating cellular activity and increasing blood flow to the scalp, promoting the delivery of nutrients and oxygen to hair follicles. It activates dormant hair follicles, promotes hair stem cell proliferation, and extends the growth phase of the hair cycle, leading to longer, thicker hair.

Safe, Clinically Proven, Affordable Acne Care

Celluma works safely and effectively, without abrasive chemicals or side effects to destroy acne-causing bacteria – not only clearing up existing blemishes but preventing future breakouts before they happen. Patients can look forward to a clearer, smoother, more radiant complexion.

Treatment: 2x per week for 8 weeks.
No other modalities used.

Treatment: 2x per week for 8 weeks.
No other modalities used.

Scientifically Proven to Relieve Arthritic & Joint Pain

Red and near infrared light therapy use specific, proven wavelengths to stimulate a natural response in human tissue that can increase circulation, accelerate tissue repair, ease muscle pain, relieve joint stiffness, and enhance overall cell performance on a microscopic level.

Celluma Advantages

Features	Benefits
✓ Patented Shapeable Design	✓ Conforms to Face, Body and Head
✓ Emits Energy at Skin Surface	✓ Dramatically Increases Effectiveness
✓ Large Surface Area	✓ Use Effectively Anywhere on the Body
✓ 3 Distinct Wavelengths: Blue, Red and Near-Infrared	✓ Treats a Wide Variety of Conditions
✓ Lightweight, Portable and Space Saving	✓ Easy Storage and Transportation
✓ Hands-free Device	✓ Efficient and Time Saving
✓ Resale to Patients	✓ Generates New Revenue Stream

“Your light, hands down, is the best esthetics product I have ever purchased!”

Sherri Lynn, L.E.
Bartlesville, OK

“Since incorporating Celluma into my cosmetic surgery practice, my patients have enjoyed significant reduction in inflammation and bruising as a result of using the Celluma post operatively. Personally, I use it regularly for pain relief for an old back injury.”

Dr. Jesse Mitchell, M.D., Board Certified Dermatologist Diplomate
American Board of Cosmetic Surgery
